

# NEWSLETTER N°99 JANUARY 2017

UNIVERSITÀ  
DEGLI STUDI  
DI MILANO

## SUMMARY

**NEWS HIGHLIGHTS** Don't miss the key information

**NEXT EVENTS** - Our programme in a click

**SERVICES FOR THE MOUNTAINS**- Practical help every month

**CALLS, INTERNSHIPS and JOBS** Don't miss these opportunities

**PROJECT IMPLEMENTATION** - Valorization of the mountain areas of the Lombardy Region

**SEMINARS and WEBINARS** - Informed and trained, on campus or online

**RECENT EVENTS** - Learn more about Unimont activities

**NEW PUBLICATIONS** - Books, articles and scientific research

**ABOUT US** - Press releases about our activities

## NEWS HIGHLIGHTS

### EUSALP – NEW WEBSITE ONLINE

EUSALP, the fourth EU macro-regional strategy, was set up to **meet the major challenges that require a common response in the Alpine Region, to stimulate an innovative and sustainable model of development, to promote growth and employment** and at the same time to **valorise the natural and cultural resources of the area.**

EUSALP now has a new website (<http://www.alpine-region.eu>) in line with these objectives, in order to provide useful **information and tools for governments and for regions, for administrators and stakeholders** but also to **create direct dialogue with the 80 million people** living in 48 regions and 7 countries, 5 of which are EU Member States (Austria, France, Germany, Italy and Slovenia) as well as Liechtenstein and Switzerland. The web site will provide **up-to-date information on EUSALP and the activities of the 9 Action Groups**, on projects with direct impact on territories, on the programme of meetings and events organized throughout the Macro-region by various stakeholders.

The focus will be on issues that emerged from the survey conducted in 2014 and which formed the core content of the EUSALP Action Plan: **growth and innovation, research and training, transport, connectivity and communications, protection of the environment, sustainable use of resources.**

The site allows users to play **an active part** in processes by asking the various Action Groups questions and sending possible suggestions, subscribing to the newsletter, sharing information through their own social networks. The EUSALP online environment is designed to grow over time: in the coming months it will be enhanced with the provision of dynamic mapping tools, interactive infographic representation of data and results and publications on various issues and strategies.

**[Eusalp website](http://www.alpine-region.eu)**

### UNIMONT PARTICIPATES IN IFTS COURSE AS HIGHER EDUCATION PROVIDER

Unimont is part of the **Associazione Temporanea di Scopo** as a higher education provider for the course in Education and Higher Technical Training (Istruzione e Formazione Tecnica Superiore (IFTS) in Techniques for the **promotion of tourism products and services with attention to local resources, opportunities and events - local and organic products and rural tourism.**

The course, organized by IMIBERG Bergamo as the lead agency, is a great opportunity for young people under 29, who have completed their high school training with a High School diploma or Technical vocational training certification, to acquire skills and improve their career prospects. The course aims to train experts in the sustainable development of the organic sector, for the management of the supply of organic products through direct relationships with producers and to develop agrifood potential for the development of tourism through events, marketing, promotion, ethical purchasing groups and projects related to the primary sector.

The course also aims to increase opportunities for sustainable development in agriculture, hotels and local activities.

Besides **UNIMONT**, the IFTS courses bring together partners from the worlds of high school and further education, vocational training and the entrepreneurial sector. This allows an innovative teaching approach, in line with the actual needs of the labour market and comprehensive in terms of content and methodologies.

### GIUSEPPE POLITI DEGREE AWARD - EDITION 2017

CIA-Italian Farmers has decided to award, for the third consecutive year, the **"GIUSEPPE POLITI" prize for a degree thesis in Agricultural and Environmental Sciences** to celebrate forty years of activity. The Prize is for a total of **€ 5,000.00 (five thousand)** gross of tax for a student who has discussed a master's/specialist degree thesis during the 2015/2016 academic year. Applications can be made from 1st February 2017 to 31st March 2017 and the selection of the winner, by a Scientific Committee, will be made public (on the website [www.cia.it](http://www.cia.it)) from 1st June 2017. For more information on how to apply please visit the website [www.cia.it](http://www.cia.it)

## AWARD FOR BEST THESIS ON THE SOCIO-ECONOMIC DEVELOPMENT OF MOUNTAIN AREAS

The **Unione Nazionale Comuni Comunità Enti Montani** (UNCCEM) - National Union of Mountain Municipalities, Communities and Organizations (UNCCEM) - Piedmont Delegation will award a **prize for the best thesis on issues related to the development of mountainous areas**, with particular reference to smart and green issues for the benefit of Alpine territories as part of the project entitled **"SMART VALLEY AND GREEN COMMUNITY"** supported by CRT and CRC Foundations. The Award is open to students living in Piedmont and/or who have attended degree courses at one of the universities based in Piedmont. Students must have discussed their dissertation at the end of a bachelor's, master's or post-graduate course in the period between 1<sup>st</sup> April 2016 and 15<sup>th</sup> April 2017. The award rewards study activities carried out for a thesis and aims to encourage new graduates' interest in research and in-depth analysis of issues related to the development of mountain areas.

ption of those strong trees able to cross all barriers and survive all conditions; almost a demonstration, and a hope, that in life there are no limits.

## NEXT EVENTS

## ADVANCED COURSE IN SUSTAINABLE TOURISM FOR MOUNTAIN AREAS

**60 HOURS** on campus and virtual classroom  
**6th March – 24th May 2017**  
**ENROLMENT DEADLINE 9 FEBRUARY 2017**

The course, for which timetable and contents are now available, will be held by university professors, experts and professionals from many sectors and disciplinary approaches in order to provide students with an updated and detailed background regarding the latest development prospects in this key area. The lectures, delivered on campus or via virtual classroom, will begin on 6<sup>th</sup> March and will usually be held on Mondays and Wednesdays in

two hour modules (14:00-18:00 or 16:00-18:00). The introductory lesson will be held by the two organizational managers of the course: **Anna Giorgi, Director of the Centre of Applied Studies for the Sustainable Management and Protection of Mountain Areas GE.S.DI.MONT** and **Leader of Action Group 1 of the European Strategy for the Alpine Region**, will provide a framework on **tourism as a growth sector as part of the cooperation strategies at an Alpine macro-regional level**, while **Antonella Capriello**, of the Department of Business Management and Environment at the University of Eastern Piedmont will introduce **Tourism Marketing and Management in Mountain areas**. The following lessons will be held by **Gianfranco Spinelli** and **Davide Porporato** (University of Eastern Piedmont) on the topic of **Sustainable Tourism from an economic and social viewpoint**; **Franco Brevini** (University of Bergamo and Corriere della Sera), who will deal with **cultural heritage as a resource for tourism in mountain areas**; **Ilda Vagge** (University of Milan), whose lecture will deal with **landscape as a resource for tourism**; **Stefania Cerutti** (University of Eastern Piedmont), who will describe **initiatives and projects of organization and planning of territories**; **Roberto Maggioni** (Maggioni Tourist Marketing) on **Marketing and promotion of tourism**, who will provide a series of **examples and case studies regarding international best practices**.

**Giovanni Vassena** and **Pietro Beretta** (Pearls of the Alps) will talk about **strategic marketing as part of tourism in villages** and will discuss **cases and experiences in the Alps**; **Flavia Cellerino** (Celeber SRL) will deal with **slow tourism, tourism for walkers**, on the **hidden culture of rural areas**; **Alessandro Meinardi** (ERSAF and Stelvio National Park) will describe **tourism in natural parks**, and in particular the example of the Stelvio National Park; **Ilaria Tonetto** (Agenzia comunicazione Koinè) and **Marianna Vianello** (Progetto KID pass) will describe the **types of tourism dedicated to children**, with examples of strategic **projects and means of communication** for welcoming children and families. **Tobias Luthe** (University of Chur and School of Sustainable Tourism, Ostana) will give a presentation in English dedicated to the **resilience of tourism to climate change**; then there will be speeches by **Claudio Smiraglia** (University of Milan), who will explore the theme

of **glaciers** and their use in the context of Alpine tourism, pointing out possible new risks and opportunities in high mountains; **Maurizio Droli** (adjunct lecturer at the University of Udine and the University of Milan-Bicocca), will speak about the idea of **albergo diffuso**, proposing models and good practices; **Antonella Capriello** (University of Eastern Piedmont) will speak on the theme of **silver tourism**, and **Giulio Senes** (University of Milan) will provide a contribution regarding **historic routes, ancient railways and routes on foot**. Further topics and speakers are planned: for further information about course contents, applications and enrolment see the **dedicated web page**. Applications must be submitted by **9<sup>th</sup> February 2017** **Download the brochure**

### TAKE PART IN THE CONTEST "SUSTAINABLE TOURISM - SHARING AND PROMOTING THE MOUNTAINS"

The **Mountain University - University of Milan and the University of Eastern Piedmont**, in collaboration with **Assorifugi Lombardia**, are launching a contest on the **Facebook page of the Mountain University**. To take part just follow these simple steps:

- 1) go to the Mountain University **Facebook page** <https://www.facebook.com/universitadellamontagna/?ref=ts&fref=ts>
- 2) share the event "**Sustainable Tourism for Mountain areas**" <https://www.facebook.com/events/215539048895822/>
- 3) send a **photo** or a **video** showing what **Sustainable Tourism for Mountain areas means to you** to [corso.edolo@unimi.it](mailto:corso.edolo@unimi.it) specifying re: "**Sustainable Tourism Contest**"

The photos and videos will be evaluated by our experts and prizes will be awarded in March. For the first 3 winners, thanks to Assorifugi, three fantastic surprises to discover sustainable tourism in the mountains! Good luck to all participants! Deadline for sending photos and video: 20<sup>th</sup> February, 2017 **Download the flyer**

### 14th FEBRUARY 2017 - OPEN DAY - DEPARTMENT OF AGRICULTURAL AND FOOD SCIENCES

Each year the University of Milan organizes meetings to raise awareness among potential undergraduates as to the educational facilities and degree programs provided,

allowing students to find out more about the courses available and University facilities. The presentation meeting of Food and Agricultural Sciences courses is scheduled for 14<sup>th</sup> February, 2017 at 9:30 a.m. - **ROOM C03 - VIA L. MANGIAGALLI 25 / VIA G. CELORIA 2 MILAN**.

## SERVICES FOR MOUNTAIN AREAS

### CALLS FOR MOUNTAIN AREAS

The Mountain University constantly monitors calls that can be of interest for mountain areas in a regional, national and international context, providing information for planners. It is interested in all those who wish to propose quality projects covering topics of interest. The University also offers Advanced Courses in basic and advanced Project Management for all those who want to pursue a career in mountain planning.

### MOUNTAIN REGULATION

The Mountain University constantly updates the section dedicated to mountain legislation, where professionals, administrators and researchers can find analytical references and laws regarding mountain areas promulgated at provincial, regional, national and European levels.

### "ANTENNAS" PROJECT

One of the main objectives of the Mountain University in 2017 is to enlarge its active network of organizations which promote a new approach to mountain areas, no longer seen as marginal but as key players in future development, encouraging change which can impact on the future of the whole world, in terms of environmental sustainability and attention to communities.

The "Antennas project" represents an important part of this network.

An "Antenna" is an organization which undertakes to:

- stream seminars on various issues related to mountain areas using a virtual platform;
- comply with UNIMONT's technical requirements in order to ensure the quality of broadcasting;

- promote their own monthly conference programme with UNIMONT;
- receive and disseminate news and activities relating to the "Antennas" network locally;
- involve others in the area interested in joining and promoting the "Antennas" network.

## CALLS, INTERNSHIPS AND JOB OPPORTUNITIES

### INTERNSHIP: EVALUATION OF PRODUCTION AND QUALITY EFFICIENCY IN *BIONDA DELL'ADAMELLO* GOATS

An internship is available starting March 2017 for the evaluation of the production and quality levels of ***BIONDA DELL'ADAMELLO* GOAT** milk at the Breed Improvement Centre at Fresine (BS). The objective is to follow lactation of about thirty goats, with weekly visits, collecting samples and taking various measurements (milking speed, ingestion of food, grazing behaviour, cheese yield). The internship is open to 2 students, car essential. Supervising lecturer: **prof. Alberto Tamburini**

### INTERNSHIP: EVALUATION OF THE SUSTAINABILITY AND EFFICIENCY OF A HIGHLAND CATTLE BREEDING FARM

The internship will be carried out during 2017 and will involve the evaluation of pastures and meadows used for a **Highland cattle "cow-calf line" farm in Val Brembana**. The objective is to monitor the quantitative and qualitative availability of meadow and pasture grass and the number of animals in order to evaluate the sustainability and environmental impact of the breeding farm. Students interested, who should be from the Val Brembana (BG) area and have their own car, will have to carry out surveys regarding the floristic characterization of meadows and pastures, livestock management, and business operations. Students must be able to carry out floristic relevés (course of Agronomy). Supervising lecturer: **prof. Alberto Tamburini**

### PASTURS PROJECT - REDUCTION OF RISK ARISING FROM THE RETURN OF LARGE CARNIVORES IN THE OROBIE BERGAMASCHE ALPS AS AN OPPORTUNITY FOR THE SUSTAINABLE DEVELOPMENT OF LOCAL COMMUNITIES

Two very important species that inspire both enthusiasm and controversy are returning to the Orobie Bergamasche Alps: the bear and the wolf. **The conflict between large carnivores and livestock activities is a major cause of the persecution** carried out by man against predators. The reduction of potential damage can be achieved through the adoption of preventive measures such as using guard dogs to defend domestic livestock, fencing in animals and surveillance by the shepherd. Dissertations/internships and recognition of credits are available for university students.

The project involves training and then a period in a mountain farmstead (minimum 1 week - maximum 3 months) to provide knowledge and practical help in the field in all aspects of the shepherds' activities. Students will provide expertise and best practices on issues regarding the conservation of ecosystems while shepherds will provide their experience and knowledge of the local area.

**[Download the flyer](#)**

**[Download the application form](#)**

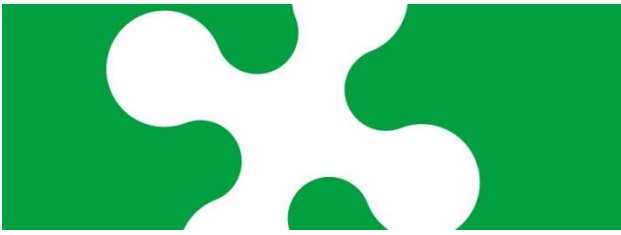

### ERSAF SEEKS MANAGER FOR ROSELLO DI SOPRA REFUGE IN VALGRIGNA (BRESCIA)

ERSAF seeks **managers for Rosello di Sopra refuge**, in the Municipality of Esine (BS) at 1720 m in the Valgrigna Forest; the refuge is easily accessible (with off-road vehicles from Plan di Montecampione in approximately 4.5 km) not only for providing accommodation and food for hikers but also for educational activities. The deadline for replying to the expression of interest notice published on the ERSAF site is 31<sup>st</sup> January. ERSAF will carry out a restricted procedure for the award of the refuge for three years. The minimum fee is EUR 3,000 per year. For more information **[click here](#)**

### OTHER ERSAF OFFERS

There are many calls open regarding jobs and the management of mountain buildings, refuges or pastures on the website of the **[Ente Regionale per i Servizi all'Agricoltura e alle Foreste](#)**. We invite you to periodically visit the **[dedicated page](#)** to stay up-to-date on job searches in ERSAF. **[Download the call](#)**

## PROJECT IMPLEMENTATION

### AGREEMENT SIGNED BETWEEN LOMBARDY REGION AND UNIMONT FOR THE ENHANCEMENT OF MOUNTAIN AREAS IN LOMBARDY BY MEANS OF SCIENTIFIC AND APPLIED RESEARCH AND THE DISSEMINATION OF KNOWLEDGE REGARDING NEW REGIONAL, NATIONAL AND EUROPEAN SCENARIOS

**Lombardy Region and UNIMONT signed an agreement aimed at fostering local and area networking activities** in order to facilitate the promotion of research, training, experimentation and study activities for the development and enhancement of mountain areas in line with European and national processes on 14<sup>th</sup> December 2016. The agreement will facilitate **the planning and promotion of study, research and training activities, also within European programs and funds, to be carried out in close collaboration with the Lombardy Region**, and will allow sectors strategic for the economic development of Lombardy mountain areas to be strengthened.

The agreement will facilitate:

- **Technology transfer to promote business development**, particularly for young entrepreneurs in mountain areas;
- The development, promotion and set up of **information dissemination and training activities** in strategic sectors for the economic development of mountain areas and the identification and promotion of good practices and support activities;
- **Adequate provision and dissemination of knowledge on mountain issues, on programmes and measures for funding activities** and, in support of the application of regional policies for the development of mountain areas, in particular provision of up-to-date information regarding legislation and regional, national and European calls, especially those related to innovative businesses and youth entrepreneurship, including in the agricultural and rural sector;
- **Planning and activation of capacity building measures** for local government institutions re-

garding the training, continuing professional development and improvement of human resources, policy formulation processes and the organization and management structures of such organizations.

These paths can also be undertaken through the use of **online tools and methods** as well as thanks to the capitalization of educational experiences provided to date. **This recognition is another confirmation of the quality and excellence of the work that the Mountain University, the Edolo Campus of the University of Milan**, is currently providing to highlight that mountains are places full of resources and opportunities, no longer marginalized, but the new frontier of modern development models.

### JOINT PLANNING OF THE "LOMBARDY APPENNINES - OLTREPÒ PAVESE" INLAND AREAS NATIONAL STRATEGY NOW STARTED

More than 200 innovators together with the administrators of the **Alto Oltrepò Pavese** will be working on **development in the Lombardy Apennines**. The **joint planning** phase involves local institutions, the Lombardy Region and the National Committee for Internal areas for the construction of the **National Strategy for Internal Areas "Lombardy Apennines - Alto Oltrepò Pavese"**.

Work involving local institutions started in early January 2017 and will last for about 9 months, with technical support from the **MOUNTAIN UNIVERSITY** confirmed by the **Comunità Montana dell'Oltrepò Pavese**. The National Strategy for Internal Areas "Lombardy Apennines - Alto Oltrepò Pavese" was launched on 10<sup>th</sup> January 2017 in Varzi (PV) in the presence of **Ugo Parolo**, Undersecretary to the Presidency in charge of Relations with the Regional Council, Policies for Mountain Areas, Alpine Macroregion (Eusalp), Quattro Motori per l'Europa and Programmazione negoziata as well as **Giovanni Carrosio** member of the National Technical Committee for Internal Areas. The meeting launching the joint planning of the National Internal Areas Strategy was characterized, as pointed out during the opening ceremony by the Mayor of the Lead Municipality of Varzi Gianfranco Alberti, by great involvement and participation of all local stakeholders and is a demonstration of the strong will to work as a team to meet the challenge of creating a strong and concrete development strategy for the **Alto Oltrepò Pavese area**.

**These first months of work will start by analysing the current situation and listening to local viewpoints** in order to define expected results as well as an overall vision to reverse **the current critical trends** (depopulation, ageing, hydrogeological instability, loss of internal and ex-

ternal networks, material and immaterial depletion, inaccessibility of environmental and cultural assets, abandonment of agricultural and production activities) and will finish by creating a final development strategy together with the Lombardy Region and the National Committee for Internal Areas. The challenge has started, it's time to get to work!

## SEMINARS & WEBINARS

### "PROJECT MANAGEMENT AT THE CENTER - THREE YEARS OF "CLIMBS" - FROM LOCAL TO NATIONAL, FROM BEST PRACTICES TO THE COMMUNITIES"

6 febbraio 2017 - ore 17:00

### "THE STELVIO NATIONAL PARK AS A BOOST TO LOCAL DEVELOPMENT"

7 February 2017 - 3.30 p.m.

### "CONSERVATION, SUSTAINABLE DEVELOPMENT AND PLANNING OF MOUNTAIN LANDSCAPES: RESULTS OF AN INTENSIVE WORKSHOP IN EDOLO"

21 February 2017 - 3.30 p.m.

### "COMMUNICATING THE MOUNTAINS: NEW STRATEGIES FOR THE REVIVAL AND PROMOTION OF MOUNTAIN RESORTS"

13 March 2017 - 5.00 p.m.

## RECENT ACTIVITIES

### 24<sup>TH</sup> JANUARY 2017 – CONFERENCE "IMPORTANCE OF FOREST PROTECTION AND BIO-ENGINEERING WORKS IN HYDROGEOLOGICAL RISK AREAS"

Massimiliano Schwarz - Berner Fachhochschule-Hochschule für Agrar-, Forts- und Lebensmittelwissenschaften held the conference "Importance of fo-

rest protection and bio-engineering works in hydrogeological risk areas " on Tuesday 24<sup>th</sup> January 2017 in the Main Hall of the Mountain University in Edolo.

#### CONTENTS:

Mountain forests have long been used by man also as a form of **protection against natural hazards, especially landslides, debris flows, rock falls and avalanches**. The protective function of forests in case of hydrogeological instability is linked, in particular, to the **action of the roots** that are able to mechanically strengthen the soil and reduce moisture content. The quantification of these effects and forest management to maximize such effects was, and is, the subject of extensive research. At the same time plants can be used, alone or in combination with inert materials, in works to prevent and mitigate hydrogeological instability as part of bioengineering projects combining the need for both safety and quality of the environment and the landscape. The conference addressed issues related to the role of plants, both from a forestry and a bio-engineering work point of view.

**[Click to see the recording](#)**

### 13 JANUARY 2017 - THIRD SYMPOSIUM "SUSTAINABLE MOUNTAIN TOURISM ALLIANCE"

"**Building a Meta-Network**", with a special focus on "**Tourism and circular economy**"  
**13th January 2017 - Ostana, Valle Po, Piedmont Italy**  
**The third symposium of the Sustainable Mountain Tourism Alliance was held in Ostana (Cuneo) and focused on the Italian mountains in relation to neighbouring countries (France, Switzerland, Austria).** After the first international symposium in Chur in 2015 and the second in Chamonix in 2016, the third symposium in Ostana brought together Italian partners with the representatives of other Alpine countries in order to foster international exchange among those engaged in the field of sustainable development.

#### FOCUS

A specific focus was dedicated to good sustainability practices and the opportunity to create a resilient mountain economy. **Emanuela Zilio**, UNIMONT researcher, was present together with experts working in the tourism sector, regional and local administrators, representatives of associations and non-governmental organizations, universities and research centres, professionals working in agriculture, forestry, the service sector, renewable energy, transport.
