

NEWS HIGHLIGHTS

Enrollment open for the Master's Degree Course VALORIZATION AND SUSTAINABLE DEVELOPMENT OF MOUNTAIN AREAS – MOUNTAINSIDE

Enrollment is now open for the international Master's degree course "Valorization and Sustainable Development of Mountain Areas" – MOUNTAINSIDE which presents a multidisciplinary study path in English and takes place entirely in Edolo (BS) in the heart of the Central Alps, at the UNIMONT Campus of the University of Milan.

Work with us: Three job opportunities to collaborate on TranStat and MountResilience projects

As part of the projects MountResilience, co-funded by the European Commission on the Horizon Europe Missions dedicated to climate change adaptation, and Interreg Alpine Space – Transtat, dedicated to the implementation of transition pathways and test solutions for the climate change adaptation of winter tourism territories, three calls are open.

"The mountains: knowledge for decision-making" the white paper on the mountains premiered at FORUM PA

Preview presentation of the "White Paper on the Mountains" at the FORUM PA 2024, a national event which, from 21st to 23rd May, brings together the main players in the Italian public sector – Ministries, Welfare Institutions, Regions, Municipalities, Health Authorities, Utilities, Universities – to discuss organizational and digital innovation in Public Administration.

MOUNTAINSIDE: The new "classroom in the forest" inaugurated

With the inauguration of the Marteloscope at Faeto – Edolo, UNIMONT – a University of Milan hub, offers its students a "classroom in the forest" included in the European network of integrated educational forests which represents a unique opportunity for those who intend to study the mountains in the mountains.

AGRITECH

Agritech – the National Centre for Agricultural Technologies is a national project financed with NRRP funds that involves 28 universities, 5 research centres, and 18 companies. The UNIMONT centre of the University of Milan will operate within Spoke 7, focusing on mountain areas with the aim of promoting a multifunctional production system that favours the agro-ecological and socio-economic sustainability of these territories.

Contribute to the mapping of Italian plant agro-biodiversity: report local varieties in your area

UNIMONT, a Centre of the University of Milan, is mapping and characterizing traditional Italian local varieties through a citizen science activity, i.e. involving citizens in the collection of scientific data in order to integrate the map of Italian plant agro-biodiversity. This initiative is supported by the NRRP Agritech project - National Center for Agricultural Technologies.

6th June 2024 | SCOTTISH MOUNTAIN SOUNDSCAPES

Mountain environments provide an immersive auditory experience shaped by natural forces and human interactions. This seminar presents results from an ongoing project that delves into people's experiences of mountain soundscapes, with a focus on the intricate world of Scottish ranges. In addition to the presentation of current results, different listening activities will be conducted to deepen the experience of Scottish Mountain soundscapes.

STUDY IN UNIMONT

Available the recording of the Open Day International Master's Degree Course in VALORIZATION AND SUSTAINABLE DEVELOPMENT OF MOUNTAIN AREAS (LM-73)

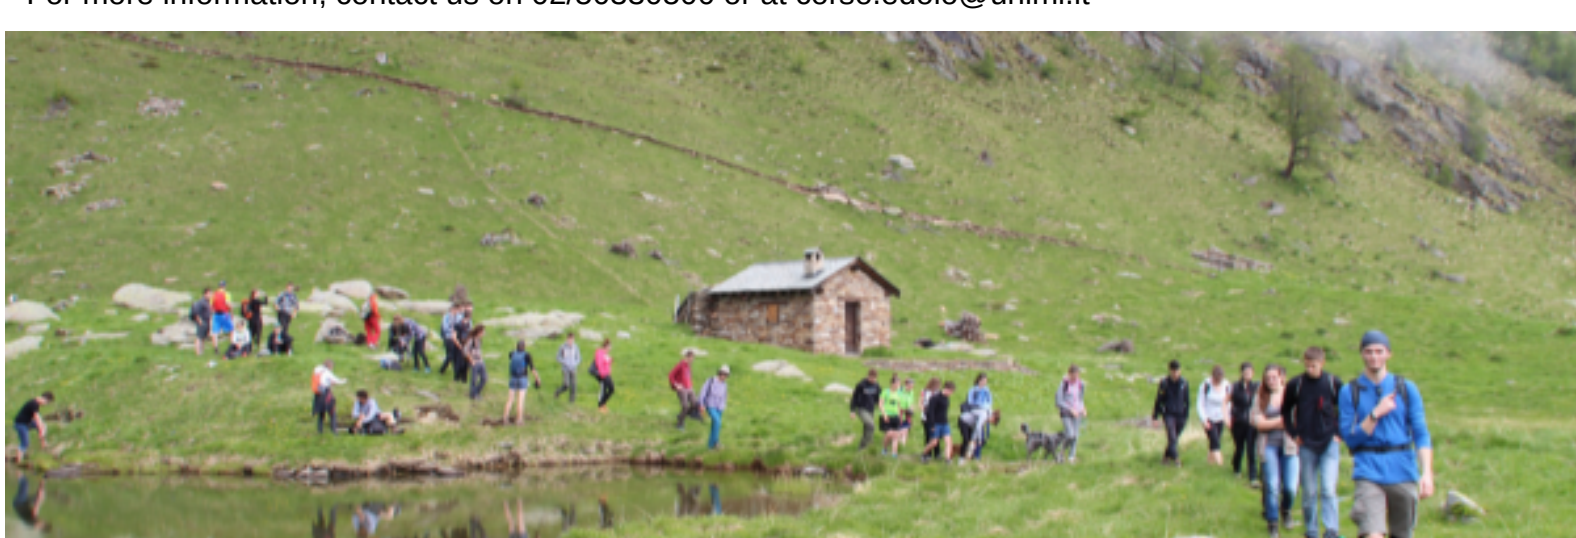

MOUNTAINSIDE: an international, multidisciplinary, innovative and glocal Master's Degree Course in the heart of the Alps

Enrollment is now open for the international Master's degree course "Valorization and Sustainable Development of Mountain Areas" – MOUNTAINSIDE which presents a multidisciplinary study path in English and takes place entirely in Edolo (BS) in the heart of the Central Alps, at the UNIMONT Campus of the University of Milan.
