

## NEWS HIGHLIGHTS

### Mountain University (UniMont), Edolo campus of the University of Milan: the project for a new student residence is underway

The municipality of Edolo (Brescia), thanks to the NRRP call, has been awarded 1.5 million euros that will be invested in the construction of new accommodation for students of UniMont, the local campus of the University of Milan. The student residence must be built by 2026 and will host approximately 80 students. Co-financing by partnership bodies is essential. Every year about 250 Italian and international students study at the UniMont campus, the University of Milan centre of excellence dedicated exclusively to the development of mountain territories.

### The White Paper on the Mountains at the XIII European Mountain Convention in the Catalan Pyrenees

At the XIII European Mountain Convention, UNIMONT, the Alpine hub of the University of Milan, presented the White Paper on the Mountains, highlighting the key role of research in the sustainable development of mountain areas.

### UNIMONT participates in the Board of Euromontana: the European alliance to promote Italian mountains in the “Green Deal” is strengthened

The Ge.S.Di.Mont. Research Centre, representing the University of Milan, took part in the Euromontana General Assembly, renewing its commitment for the sustainable development of mountain areas. On this occasion, Prof. Anna Giorgi was re-elected as a member of Euromontana’s Board of Directors for Italy.

### Research and governance: The impact of universities and international cooperation for the sustainable development of mountain areas

During the XIII European Mountain Convention, the new Catalan strategy for mountain areas will be presented, established thanks to sharing and comparison of ideas within international working groups including the network established by Euromontana. Strategic processes that highlight once again the fundamental role of research institutions in supporting the definition of priorities and strategies for the sustainable development of mountain territories.

### UNIMONT reports: Mountain Future Award 2024

FAO, UN agency dedicated to food and agriculture, invites young people and institutions to propose innovative projects for a sustainable future in mountain areas by applying for the Mountain Future Award 2024.

### UNIMONT at the conference “PEACE AND SUSTAINABLE MOUNTAIN TOURISM: CHALLENGES AND OPPORTUNITIES” at the Georgian Technical University

From Tuesday 26th to Thursday 28th September, the international conference “PEACE AND SUSTAINABLE MOUNTAIN TOURISM: CHALLENGES AND OPPORTUNITIES” took place in Tbilisi, at the Georgian Technical University, with the participation of numerous academic authorities and institutional representatives from all over the world, committed to promoting sustainable tourism in mountain areas. UNIMONT, the Alpine hub of the University of Milan, was also invited to play a key role in the conference.

## AGRITECH

Agritech – the National Centre for Agricultural Technologies is a national project financed with NRRP funds that involves 28 universities, 5 research centres, and 18 companies. The UNIMONT centre of the University of Milan will operate within Spoke 7, focusing on mountain areas with the aim of promoting a multifunctional production system that favours the agro-ecological and socio-economic sustainability of these territories.

### Contribute to the mapping of Italian plant agro-biodiversity: report local varieties in your area

UNIMONT, a Centre of the University of Milan, is mapping and characterizing traditional Italian local varieties through a citizen science activity, i.e. involving citizens in the collection of scientific data in order to integrate the map of Italian plant agro-biodiversity. This initiative is supported by the NRRP Agritech project - National Center for Agricultural Technologies.

### Use of the Biological Soil Quality Index for the Characterisation of Alpine Pasture Soils

The study performed by UNIMONT and the Department of Agricultural and Environmental Sciences – Production, Territory, Agroenergy of the University of Milan, within the PNRR Agritech Project, aims to develop innovative tools and practices for the adaptive management of pastures in the alpine valleys of Val Camonica (Lombardy Italy). It is based on the characterisation of soil quality, assessed from humus type and soil type (first step) and biological quality based on the presence and biodiversity of micro-arthropods.

## STUDY IN UNIMONT

### MOUNTAINSIDE: Two Study Awards to support enrolment

The Master’s Degree Course “Valorization and Sustainable Development of Mountain Areas” – MOUNTAINSIDE is an international study path, entirely in English, which trains expert professionals of mountain systems through multidisciplinary academic preparation and a “glocal” experience, capable of combining global aspects with local ones. Two different study awards are available to support enrolment, for information contact [corso.edolo@unimi.it](mailto:corso.edolo@unimi.it).

### Available the recording of the Open Day International Master's Degree Course in VALORIZATION AND SUSTAINABLE DEVELOPMENT OF MOUNTAIN AREAS (LM-73)
